Video Presentation

Barley Crushers / Barley Mills by Millar's

Quality beer brewing starts out with quality barley, and a quality barley can only see it's potential when using the right consistent "crack" or grind that can only be achieved using a barley grinder / mill.

- Construction Aircraft Anodized Aluminum & knurled Hardened Steel Dual Roller Mill
- ALL NEW genuine ball bearing Shaft Bearings for durability
- Easy to use crack/grind Adjustment with all new etched points (marks) for adjustment reference
- Extra long handle for easier hand-crank action, or use a drill or low rpm motor
- Fresh ground barley is superior for high quality beer brewing
- **Comes with commercial quality 58oz cast-aluminum scoop & handle**
- **Free Shipping!**
- Stainless steel mounting screws included
- Very little assembly required
- Can mill or crack a variety of grains, not only limited to barley
